

Romic Consulting Limited is proud to be able to offer:

### 11 x Standard Gauge 4-Car Diesel Multiple Unit for Sale

**Unit shown is an example of units available and is offered subject to prior sale.**

These modern 4-car DMU train sets are ideal for regional services; or high speed rail link between a city and an airport.

Believed to be less than 10 to 12 years old, these DMU train sets are in very good working order and have been maintained to a very high standard to ensure they meet the day to day demands of a modern rail network with precise timetabling.

Powered by four low-emission 20-litre Iveco V8 diesel engines.  
Maximum speed is 200 km/h (120mph).

The units are built from light aluminium allows, each trainset weighs 140 - 160 tonnes, with a fully operational weight (including diesel, water, etc.) of 170 tonnes.

Up to four trainsets can be coupled together into a single train. However, it is recommended these DMU are used as a four car train set only to ensure maximum reliability.

These units were styled by the Italian design company Pininfarina, and both the exterior and interior styling demonstrate a high level of design and quality materials.

Internally these trainsets are fully air conditioned, are equipped with audio/video information systems, seat reservation displays and a lounge area, and have a total seating capacity of 204.

#### Brief Specification

Type	<b>4-Car DMU</b>
Built	<b>2005 - 2013</b>
Maker	<b>AnsaldoBreda</b>
Wheel arrangement	<b>Bogie</b>
Specification	<b>UIC</b>
Maximum Speed	<b>124mph / 200km/h</b>
Transmission	<b>Diesel Mechanical</b>
Gauge	<b>1,435mm</b>
Car Length	<b>19,000mm / 24,000mm</b>
Weight	<b>160t</b>
Seating Capacity	<b>204 seated</b>

### Technical Specification

Type	Regional / Intercity Passenger DMU
Manufacturer	AnsaldoBreda
Fleet size	82 x 4-car units
Build year	2005 - 2013
Body construction	Aluminium
Gauge	1,435 mm (4'8.5")
Train length	86.53 m (283'10 11/16")
Car length	19,000 mm (62'4 1/16") intermediate cars / 24,000 mm (78'8 7/8") end cars
Width	3,150 mm (10'4")
Height	4,200 mm (13'9 3/8")
Floor height	1,290 mm (50 13/16") MG and FG cars / 600 mm (23 5/8") FH cars
Platform height	550 mm (21 5/8")
Entry	Step (MG and FG cars) / Level (FH cars)
Overall weight	160 tonnes (157.5 long tons / 176.4 short tons)
Transmission	Mechanical
Engines	4 × 20 L (1,200 cu in) Diesel (4 × 560 kW (750 hp))
Maximum speed	200 km/h (124 mph)
Acceleration	0.9 m/s <sup>2</sup> (3.0 ft/s <sup>2</sup> )
Couplers	Scharfenberg
Brakes	Air-Brake, Dynamic Brake and Track Brake
Doors	4
Safety system	ATC (ZUB 123)
Other features	Fully air conditioned, audio/video information systems, seat reservation displays and a lounge area
Interoperability	Within class
Formation	Operate as 4-car units
Seating capacity	204 per unit
